Purpose of this document

Financial Services Guide

The purpose of this FSG is to assist you in deciding whether to use our services by giving you information about the type of services we provide, how we are remunerated and your rights when you have a complaint about the services we provide to you.

We recommend that you read and understand this FSG before you engage us to provide you with any financial services. If you have any questions, please get in touch with us.

Not Independent

Because we may receive commissions on existing life risk insurance products that are not rebated in full to clients, we are not able to refer to ourselves or our advice as 'independent', 'impartial' or 'unbiased'.

Additional documents you may receive from us

When we provide you with financial planning services you may receive:

- A Statement of Advice (SoA) or Record of Advice (RoA). These documents set out the advice we provide to you. If you have not been provided with the SoA or RoA, you may request a copy of it free of charge at any time within 7 years after the advice was provided to you, by contacting us;
- A Product Disclosure Statement (PDS) which provides details about the significant risks and benefits, costs, charges and other significant characteristics or features of the products we have recommended.

If you enter into an ongoing service agreement with us, you will receive annual fee disclosure statements and we will ask you to renew the agreement and consent to the deduction of advice fees from your account each year.

How do I pay for Dalton Financial Partners advice?

We will charge you a fixed fee (or fixed fee range) for our services. This fee is based on factors such as the complexity of your situation, the areas of advice and the expertise required.

Our comprehensive financial planning service (for new clients) starts from \$11,500 plus GST for a 12-month engagement. First year fees typically range between \$11,500 plus GST to \$23,000 plus GST, but can be higher depending on the client’s particular situation and level of complexity. Your individually calculated fee will be confirmed in your Terms of Engagement (ToE). This fee covers all interactions, advice, strategy, meetings, documentation, and implementation during the 12-month service period.

For clients who have completed our 12-month service engagement: ongoing advice (for suitable clients) is available and starts from \$6,000 plus GST for a 12-month service engagement. Fees are recalculated and renewed every 12-months.

Fees may also be recalculated during a service engagement if the scope of the work changes significantly. The method and the specific amount you will pay for Dalton Financial Partners advice will be explained in your Terms of Engagement (ToE), Statement of Advice (SoA) documents and ongoing service agreements.

All fees are payable to the Licensee. Joshua Dalton is an owner of the shares on issue in the Licensee and shares in the profits that the Licensee makes.

General Advice

We may charge you a fee for any general advice we provide to you. That fee may be either a fixed fee or based on the amount of hours it takes us to prepare and provide you with the general advice. Details of the fee will be agreed with you in writing. You may request information about these fees within a reasonable time after receiving this FSG but before you are provided with any general advice.

Insurance Commissions

In regard to life & disability insurance strategies, our preference is to charge you a combination of a fixed fee (included in your comprehensive service fee) and product commissions to cover the cost of this advice and implementation. However, clients can elect to have commissions removed and pay a higher fixed fee.

Initial commissions can be up to 66% of the first year’s insurance premium and up to 22% of the annual premium from the second year onwards.

For example, for an insurance product with an annual premium of \$2,000, where the issuer pays us an upfront commission of 60%, we will receive \$1,200. The issuer will pay us 22% of the annual premium as ongoing commission for as long as you hold the product. Assuming an annual premium of \$2,000, this equates to \$440 per year.

This helps pay us for the work in devising, implementing, and monitoring insurance strategies. If we receive commissions, we may reduce your advice fees. If commission payments are applicable, they will be noted in your ‘Terms of Engagement’ and fully disclosed in your Statement of Advice.

We look to present fees that we believe are fair and represent value. Our aim is to put our client in a better financial position over the long term ‘net of fees’ paid.
