## Client testimonials

 **J Warren**

After stagnating with a cookie cutter advisory service, we engaged the team at Dalton Financial Partners. Their boutique services are provided with genuine interest and a personalised approach by a team of friendly professionals. Dalton Financial Partners provide our family proactive advice in a dynamic financial market. If you're looking for a unique financial plan which can grow and adapt have a chat with these guys.

 **M Baker**

We have been clients of Josh and his team for 5 years and have been very happy throughout. Our initial situation was not straightforward, but they took the time to understand our position and tailored an appropriate and comprehensive investment strategy. Importantly, this strategy has not stayed static and has been adapted to our own needs and market conditions. We have no hesitation in recommending Josh and his team, and it's been great to see his business growing.

 **R Poulter**

Josh provides fantastic, personalised advice that's easy to follow. The holistic advice is laid out in a way that's understandable and shows how all the components are working for our financial goals. The review appointments are excellent for showing progress and discussing options going forward. Josh also makes himself available at times that suit our schedules and is understanding of our time constraints.

## How do I pay Dalton Financial Partners for Advice?

Strategy meetings to provide initial advice range from \$1,800 - \$2,500 plus GST. Strategy meetings do not include product advice or any implementation, however, this fee can be used as a credit towards our comprehensive financial planning service.

Our comprehensive financial planning service (for new clients) starts from \$12,000 plus GST for a 12-month engagement. First year fees typically range between \$12,000 to \$18,000 plus GST but can be higher depending on the client’s particular situation and level of complexity. Your individually calculated fee will be confirmed in your Terms of Engagement (ToE). This fee covers all interactions, advice, strategy, meetings, documentation, and implementation during the 12-month service period.

Annual fees are broken down and spread over 12 months, so they are manageable. Fees related to superannuation can generally be paid from your superannuation balance (normally 40-70% of your annual fee).

For clients who have completed our first-year service, ongoing advice is available and starts from \$7,200 plus GST for a 12-month service engagement. Fees are recalculated and renewed every 12-months.

Fees may also be recalculated during a service engagement if the scope of the work changes significantly. The method and the specific amount you will pay for Dalton Financial Partners advice will be explained in your Terms of Engagement (ToE), Statement of Advice (SoA) documents and ongoing service agreements.

### General Advice

We may charge you a fee for any general advice (that is, advice that does not consider your financial situation, needs or objectives) we provide to you. That fee may be either a fixed fee or based on the amount of hours it takes us to prepare and provide you with the general advice. Details of the fee will be agreed with you in writing. You may request information about these fees within a reasonable time after receiving this FSG but before you are provided with any general advice.

### Insurance Commissions

In regard to life & disability insurance strategies, our preference is to charge you a combination of a fixed fee (included in your comprehensive service fee) and product commissions to cover the cost of this advice and implementation. However, clients can elect to have commissions removed and pay a higher fixed fee.

Initial commissions can be up to 66% of the first year’s insurance premium and up to 22% of the annual premium from the second year onwards, including GST

For example, for an insurance product with an annual premium of \$3,000, where the issuer pays us an upfront commission of 66%, we will receive \$1,980. The issuer will pay us 22% of the annual premium as ongoing commission for as long as you hold the product. Assuming an annual premium of \$3,000, this equates to \$660 per year.

This helps pay us for the work in devising, implementing, and monitoring insurance strategies. If we receive commissions, we may reduce your advice fees. If commission payments are applicable, they will be noted in your ‘Terms of Engagement’ and fully disclosed in your Statement of Advice.

**We look to present fees that we believe are fair and represent value. Our aim is to put our client in a better financial position over the long term ‘net of fees’ paid.**

Copies of these can be requested either verbally or in writing. You can typically access these for up to seven years after the relevant advice was provided.

If you wish to examine your file, please ask us. We will make arrangements for you to do so.
